**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Unaudited)**

The following discussion summarizes the financial position and results of operations of Oklahoma AgCredit, ACA (the Association) for the six months ended June 30, 2021, with comparisons to prior periods. You should read these comments along with the accompanying financial statements and footnotes and the 2020 Annual Report to Shareholders. The accompanying financial statements were prepared under the oversight of our Audit Committee.

ECONOMIC OVERVIEW

The economic recovery that began in the third quarter of 2020 continues at a blistering pace. Economists expect gross domestic product growth to be 8.8% in the second quarter of 2021, which would be the strongest reading in over twenty years. Gross revenue to the Oklahoma state treasury in June broke records for the month and fiscal year that ended June 30, 2021. Although Oklahoma's unemployment rate improved to 4.0%, it remains slightly above the pre-pandemic low. Crude oil prices are 82% above prior year levels, driving increased rig counts and economic activity. With a preponderance of borrowers reliant on non-farm income, this bodes well for credit quality and loan demand. Historically low interest rates, strong commodity prices, and a resilient regional economy all contribute to a vibrant real estate market.

The hard red winter wheat crop in our trade territory was better than average and, coupled with the best commodity prices in ten years, should result in solid profitability for grain producers. Fall-seeded crops have received ample amounts of rainfall which has also benefited summer forage growth. Cattle prices are little changed from last quarter but are at levels conducive to generating positive cash flow. Despite packer concentration, cattle feeders operated at near breakeven levels during the quarter. Robust beef demand continues to support our primary commodity.

The United States continues the economic recovery from the COVID-19 pandemic, with a surge in economic activity due to the combination of federal stimulus spending, increasing vaccination rates in households across the country, improving employment levels, and the warm weather seasons. The economic recovery fueled by the Federal stimulus could translate into a significant increase in consumer spending and demand for goods and services that have been constrained during the pandemic. This economic recovery has been hampered by demand for goods and services running ahead of supply as labor-force participation is behind and supply chains continue to experience disruptions related to the transportation and production of critical components. As growing demand has encountered supply constraints, inflation measures have risen sharply over the second quarter.

The U.S. government has continued to institute various programs in support of the COVID-19 recovery. In March 2021, Congress passed the \$1.9 trillion American Rescue Plan Act designed to provide near-term help to those hurt by the pandemic. In December 2020, Congress passed the Economic Aid to Hard-Hit Small Businesses, Nonprofits and Venues Act, which, among other provisions, allocated additional funding for Paycheck Protection Program (PPP) loans and allows certain existing PPP borrowers to apply for additional loans or draws on existing loans. The Association is an approved lender in the PPP and continued to provide funds to eligible borrowers during the first quarter of 2021. In March 2021, the current presidential administration also proposed the \$2.3 trillion American Jobs Plan intended to create jobs and rebuild the country's infrastructure.

LOAN PORTFOLIO

Loans outstanding at June 30, 2021 totaled \$1.64 billion, an increase of \$37.1 million, or 2.3%, from loans of \$1.61 billion at December 31, 2020. The increase was primarily due to \$193.0 million in new real estate loans, 38 of which were between \$1.0 million and \$10.6 million. This increase was partially offset by \$87.8 million in repayments and \$32.4 million in paydowns on existing lines of credit in the capital markets portfolio. The increase in payment activity in the real estate segment of the core portfolio is generally attributable to the maturation in 2021 of payments deferred from 2020 as part of the COVID-19 debt relief programs and to Economic Impact Payments, which increased borrowers' repayment capacity.

Overall credit quality of our loan portfolio remained sound during the first six months of 2021. However, stress to our portfolio has increased slightly. Credit issues have been proactively addressed. Expedited handling has brought about minimal losses with positive results.

RESULTS OF OPERATIONS

Net income for the six months ended June 30, 2021, was \$13.1 million, an increase of \$799 thousand, or 6.5%, from the same period ended one year ago. The increase is primarily due to higher net interest income and an increase in patronage income from CoBank, offset by higher noninterest expense.

Net interest income for the six months ended June 30, 2021, was \$21.5 million, an increase of \$2.0 million, or 10.2%, compared with the six months ended June 30, 2020. Interest rate spread increased by 8 basis points. Interest income decreased as a result of a decrease in borrower rates, partially offset by average loan volume growth of 12.9%. Interest expense decreased due to a decrease in rates, slightly offset by the average volume increase in debt to CoBank of 14.7%. Net interest margin decreased by 7 basis points due to a decrease of \$801 thousand in the return on our own capital.

The provision for credit losses for the six months ended June 30, 2021, was \$721 thousand, an increase of \$315 thousand, or 77.6%, from the same period ended one year ago. The majority of this increase consists of a net charge-off of \$397 thousand for cattle loans. Over the past six months, cattle prices have risen steadily, but the market reaction to COVID-19 has been volatile, both domestically and globally, making profitability a challenge. Overall, commodity prices have trended higher providing opportunity for profits in the farming sector for the first time in many years, but could cause livestock producers to incur higher feed input costs. The additional level of reserves reflects greater stress in our retail lines of credit.

Noninterest income increased \$550 thousand during the first six months of 2021 compared with the first six months in 2020, primarily due to a \$954 thousand increase in patronage income from CoBank. CoBank's target for patronage related to our direct note increased to 45 basis points in 2021 from 36 basis points in 2020. The overall increase in noninterest income was offset by the lack of a 2021 insurance refund from the Farm Credit System Insurance Corporation (FCSIC), which in 2020 amounted to \$313 thousand, as well as decreases in loan fees and mineral income of \$48 thousand and \$36 thousand, respectively.

FCSIC refunds are issued based on our portion of excess funds above the secure base amount in the FCSIC Allocated Insurance Reserve Accounts. In January 2021, the FCSIC announced that, due to extraordinary System growth in 2020, the insurance fund had ended the 2020 year \$186 million short of the 2.0% secure base amount; for this reason, no refund was issued in 2021 and premium rates were raised, as discussed in the context of noninterest expense below. Refer to the 2020 Annual Report to Shareholders for additional information.

Mineral income of \$287 thousand was recognized during the first six months of 2021. Of this amount, \$283 thousand was received from CoBank. The decrease for the six months ended June 30, 2021, compared with first six months of 2020 is primarily the result of a steady decline in prices throughout 2020. In the second quarter, however, the steady increase in crude oil prices and gradual uptick in production led to an increase in mineral income over the same quarter ended in the prior year.

During the first six months of 2021, noninterest expense increased \$1.4 million to \$11.9 million, primarily due to the increases in fees paid to our service provider, AgVantis, and loan servicing fees. FCSIC premiums, which in 2021 were charged at a rate double that of the same period ended in 2020, also contributed to this increase. These increases were partially offset by the decrease in qualified pension expense.

CAPITAL RESOURCES

Our shareholders' equity at June 30, 2021, was \$319.9 million, an increase of \$13.2 million since December 31, 2020. This increase is due to net income, the amortization of pension costs included in the net periodic benefit cost, and net stock issuances.

OTHER MATTERS

On March 5, 2021, the United Kingdom's Financial Conduct Authority (UKFCA), formally announced that all LIBOR tenors will either be discontinued or no longer be representative immediately after December 31, 2021. As a result, the UKFCA has closely worked with market participants and regulatory authorities around the world to ensure that alternatives to LIBOR are available and that existing contracts can be transitioned onto these alternatives to safeguard financial stability and market integrity.

We continue to analyze potential risks associated with the LIBOR transition, including financial, operational, legal, tax, reputational and compliance risks. At this time, despite the announcements from UKFCA, we are unable to predict when LIBOR will cease to be available or if Secured Overnight Financing Rate (SOFR) or any other alternative reference rate will become the benchmark to replace LIBOR. Because we engage in transactions involving financial

instruments that reference LIBOR, these developments could have a material impact on the Association and our borrowers. Management has documented and are working through a LIBOR transition plan with our funding bank and service provider to address the phase out of LIBOR rates in the future, including any updates to processes and loan servicing technology.

The undersigned certify they have reviewed this report, this report has been prepared in accordance with all applicable statutory or regulatory requirements and the information contained herein is true, accurate, and complete to the best of his or her knowledge and belief.

NOTES TO FINANCIAL STATEMENTS
Dollars in Thousands, Except as Noted
(Unaudited)

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A description of the organization and operations of Oklahoma AgCredit, ACA (the Association), the significant accounting policies followed, and the financial condition and results of operations as of and for the year ended December 31, 2020, are contained in the 2020 Annual Report to Shareholders. These unaudited second quarter 2021 financial statements should be read in conjunction with the 2020 Annual Report to Shareholders.

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. (GAAP) for interim financial information. Accordingly, they do not include all of the disclosures required by GAAP for annual financial statements and should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2020, as contained in the 2020 Annual Report to Shareholders.

In the opinion of management, the unaudited financial information is complete and reflects all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of results for the interim periods. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year ending December 31, 2021. Descriptions of the significant accounting policies are included in the 2020 Annual Report to Shareholders. In the opinion of management, these policies and the presentation of the interim financial condition and results of operations conform with GAAP and prevailing practices within the banking industry.

Recently Adopted or Issued Accounting Pronouncements

In March 2020, the Financial Accounting Standards Board (FASB) issued guidance entitled "Facilitation of the Effects of Reference Rate Reform on Financial Reporting." The guidance provides optional expedients and exceptions for applying GAAP to contracts and other transactions affected by reference rate reform. The guidance simplifies the accounting evaluation of contract modifications that replace a reference rate affected by reference rate reform and contemporaneous modifications of other contracts related to the replacement of the reference rate. The optional amendments are effective as of March 12, 2020, through December 31, 2022. The Association applied the optional expedient related to loans in the first quarter of 2021. The impact of the adoption was not material to the Association's financial condition or its results of operations.

In June 2016, the FASB issued guidance entitled "Measurement of Credit Losses on Financial Instruments." The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers, this guidance was to become effective for interim and annual periods beginning after December 15, 2020, with early application permitted. In November 2019, the FASB issued an update that amends the mandatory effective date for this guidance for certain institutions. The change resulted from a change in the effective date philosophy that extends and simplifies the adoption by staggering the dates between large public entities and other entities. As a result of the change, the new credit loss standard, for those institutions qualifying for the delay, becomes effective for interim and annual reporting periods beginning after December 15, 2022, with early adoption permitted. The Association qualifies for the delay in the adoption date. The Association continues to evaluate the impact of adoption on the Association's financial condition and its results of operations.

NOTE 2 - LOANS AND ALLOWANCE FOR LOAN LOSSES

A summary of loans follows.

	June 30, 2021	December 31, 2020
Real estate mortgage	\$ 1,175,849	\$ 1,092,660
Production and intermediate-term	206,172	239,559
Agribusiness	169,886	182,016
Rural infrastructure	82,040	82,951
International	9,057	8,028
Rural residential real estate	247	893
Total Loans	\$ 1,643,251	\$ 1,606,107

The Association purchases and sells participation interests with other parties in order to diversify risk, manage loan volume and comply with Farm Credit Administration regulations. The following table presents information regarding the balances of participations purchased and sold at June 30, 2021:

	Other Farm Credit Institutions		Non-Farm Credit Institutions		Total	
	Purchased	Sold	Purchased	Sold	Purchased	Sold
Real estate mortgage	\$ 44,251	\$ 5,909	\$ 167	-	\$ 44,418	\$ 5,909
Production and intermediate-term	36,896	3,669	-	-	36,896	3,669
Agribusiness	166,730	-	-	-	166,730	-
Rural infrastructure	82,040	-	-	-	82,040	-
International	9,057	-	-	-	9,057	-
Total	\$ 338,974	\$ 9,578	\$ 167	\$ -	\$ 339,141	\$ 9,578

One credit quality indicator utilized by the Association is the Farm Credit Administration Uniform Loan Classification System that categorizes loans into five categories. The categories are defined as follows:

- Acceptable – assets are expected to be fully collectible and represent the highest quality.
- Other assets especially mentioned (OAEM) – assets are currently collectible but exhibit some potential weakness.
- Substandard – assets exhibit some serious weakness in repayment capacity, equity and/or collateral pledged on the loan.
- Doubtful – assets exhibit similar weaknesses to substandard assets; however, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable.
- Loss – assets are considered uncollectible.

The following table shows loans and related accrued interest classified under the Farm Credit Administration Uniform Loan Classification System as a percentage of total loans and related accrued interest receivable by loan type as of:

	June 30, 2021	December 31, 2020
Real estate mortgage		
Acceptable	98.76%	98.75%
OAEM	0.51%	0.56%
Substandard	0.73%	0.69%
Total	100.00%	100.00%
Production and intermediate-term		
Acceptable	96.80%	96.00%
OAEM	1.06%	2.85%
Substandard	2.14%	1.15%
Total	100.00%	100.00%

(continued)

	June 30, 2021	December 31, 2020
Agribusiness		
Acceptable	96.35%	96.33%
OAEM	3.25%	3.25%
Substandard	0.40%	0.42%
Total	100.00%	100.00%
Rural infrastructure		
Acceptable	99.37%	99.36%
OAEM	0.63%	0.64%
Total	100.00%	100.00%
Rural residential real estate		
Acceptable	100.00%	100.00%
Total	100.00%	100.00%
International		
Acceptable	100.00%	100.00%
Total	100.00%	100.00%
Total Loans		
Acceptable	98.31%	98.10%
OAEM	0.86%	1.21%
Substandard	0.83%	0.69%
Total	100.00%	100.00%

High risk assets consist of impaired loans and other property owned. These nonperforming assets (including related accrued interest) and related credit quality are as follows:

	June 30, 2021	December 31, 2020
Nonaccrual loans		
Real estate mortgage	\$ 6,684	\$ 5,672
Production and intermediate-term	1,893	2,091
Total nonaccrual loans	\$ 8,577	\$ 7,763
Accruing restructured loans		
Real estate mortgage	\$ 299	\$ 559
Production and intermediate-term	247	607
Total accruing restructured loans	\$ 546	\$ 1,166
Total high risk assets	\$ 9,123	\$ 8,929

The Association had no accruing loans 90 days past due or other property owned for the periods presented.

Additional impaired loan information is as follows:

	June 30, 2021			December 31, 2020		
	Recorded Investment	Unpaid Principal Balance	Related Allowance	Recorded Investment	Unpaid Principal Balance	Related Allowance
Impaired loans with no related allowance for credit losses:						
Real estate mortgage	\$ 6,983	\$ 7,677		\$ 6,231	\$ 6,931	
Production and intermediate-term	2,140	3,331		2,698	3,786	
Agribusiness	-	119		-	119	
Total	\$ 9,123	\$ 11,127		\$ 8,929	\$ 10,836	
Total impaired loans:						
Real estate mortgage	\$ 6,983	\$ 7,677	\$ -	\$ 6,231	\$ 6,931	\$ -
Production and intermediate-term	2,140	3,331	-	2,698	3,786	-
Agribusiness	-	119	-	-	119	-
Total	\$ 9,123	\$ 11,127	\$ -	\$ 8,929	\$ 10,836	\$ -

Note: The recorded investment in the loan receivable is the face amount increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges, or acquisition costs and may also reflect a previous direct write-down of the loan receivable.

The Association had no impaired loans with a related allowance for credit losses for the periods presented.

The Association maintains a separate reserve for unfunded commitments, which is included in Liabilities on the Association's Consolidated Statement of Condition. The related provision for the reserve for unfunded commitments is included as part of the provision for credit losses on the Consolidated Statement of Comprehensive Income, along with the provision for loan losses. A summary of changes in the reserve for unfunded commitments follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2021	2020	2021	2020
Balance at beginning of period	\$ 586	\$ 568	\$ 562	\$ 578
Provision for unfunded commitments	104	55	128	45
Total	\$ 690	\$ 623	\$ 690	\$ 623

Additional information on the allowance for loan losses follows:

	Allowance for Credit Losses Ending Balance at June 30, 2021		Recorded Investments in Loans Outstanding Ending Balance at June 30, 2021	
	Individually evaluated for impairment	Collectively evaluated for impairment	Individually evaluated for impairment	Collectively evaluated for impairment

A restructuring of a debt constitutes a troubled debt restructuring (TDR) if the creditor, for economic or legal reasons related to the debtor's financial difficulties, grants a concession to the debtor that it would not otherwise consider.

The following table presents additional information regarding troubled debt restructurings that occurred during the periods.

	For the Six Months Ended			
	June 30, 2021		June 30, 2020	
	Pre-modification Outstanding Recorded Investment*	Post-modification Outstanding Recorded Investment*	Pre-modification Outstanding Recorded Investment*	Post-modification Outstanding Recorded Investment*
Troubled debt restructurings:				
Real estate mortgage	\$ -	\$ -	\$ 40	\$ 41
Total	\$ -	\$ -	\$ 40	\$ 41

* Pre-modification represents the recorded investment in the loan receivable just prior to restructuring and post-modification represents the recorded investment in the loan receivable immediately following the restructuring. The recorded investment is the face amount of the loan receivable increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges, or acquisition costs and may also reflect a previous direct write-down of the investment.

There were no loans modified as part of a troubled debt restructurings during the three-month period ended June 30, 2021 or June 30, 2020.

Of loans modified as troubled debt restructurings within the last twelve months, one loan totaling \$68 defaulted during both the three-month and the six-month periods ended June 30, 2020. There were no such defaults in the corresponding periods ended June 30, 2021.

Additional commitments to lend to borrowers whose loans were modified in a troubled debt restructuring were \$294 at December 31, 2020. There were no such commitments at June 30, 2021.

The following table provides information on outstanding loans restructured in troubled debt restructurings at period end. These loans are included as impaired loans in the impaired loan table.

	Loans modified as TDRs		TDRs in Nonaccrual Status*	
	June 30, 2021	December 31, 2020	June 30, 2021	December 31, 2020
Real estate mortgage	\$ 637	\$ 656	\$ 337	\$ 96
Production and intermediate-term	546	1,074	300	468
Total	\$ 1,183	\$ 1,730	\$ 637	\$ 564

* Represents the portion of loans modified as TDRs (first column) that are in nonaccrual status.

NOTE 3 - CAPITAL

A summary of select capital ratios based on a three-month average and minimums set by the Farm Credit Administration follows.

	As of June 30, 2021	As of December 31, 2020	Regulatory Minimums	Capital Conservation Buffer	Total
Risk Adjusted:					
Common equity tier 1 ratio	15.13%	15.88%	4.5%	2.5%	7.0%
Tier 1 capital ratio	15.13%	15.88%	6.0%	2.5%	8.5%
Total capital ratio	15.38%	16.12%	8.0%	2.5%	10.5%
Permanent capital ratio	15.16%	15.91%	7.0%	-	7.0%
Non-risk-adjusted:					
Tier 1 leverage ratio	15.57%	16.34%	4.0%	1.0%	5.0%
Unallocated retained earnings and equivalents leverage ratio	17.06%	17.55%	1.5%	-	1.5%

If capital ratios fall below the regulatory minimum plus buffer amounts, capital distributions (equity redemptions, cash dividend payments, and cash patronage payments) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval.

The following tables present the activity in the accumulated other comprehensive loss, net of tax by component:

	For the Three Months Ended June 30		For the Six Months Ended June 30	
	2021	2020	2021	2020
Pension and other benefit plans:				
Beginning balance	\$ (227)	\$ (303)	\$ (248)	\$ (320)
Amounts reclassified from accumulated other comprehensive loss	21	17	42	34
Net current period other comprehensive income	21	17	42	34
Ending balance	\$ (206)	\$ (286)	\$ (206)	\$ (286)

The following table represents reclassifications out of accumulated other comprehensive income/(loss).

	Amount Reclassified from Accumulated Other Comprehensive Income/(Loss)		Location of Gain/Loss Recognized in Statement of Income	
	For the Three Months Ended June 30			
	2021	2020		
Pension and other benefit plans:			Salaries and employee benefits	
Net actuarial loss	\$ 21	\$ 17		
Total reclassifications	\$ 21	\$ 17		

	Amount Reclassified from Accumulated Other Comprehensive Income/(Loss)		Location of Gain/Loss Recognized in Statement of Income	
	For the Six Months Ended June 30			
	2021	2020		
Pension and other benefit plans:				
Net actuarial loss	\$ 42	\$ 34	Salaries and employee benefits	
Total reclassifications	\$ 42	\$ 34		

NOTE 4 - FAIR VALUE MEASUREMENTS

Accounting guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability. See Note 2 of the 2020 Annual Report to Shareholders for a more complete description.

Assets measured at fair value on a recurring basis are summarized below:

	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Assets held in nonqualified benefits trusts				
June 30, 2021	\$ 507	\$ -	\$ -	\$ 507
December 31, 2020	\$ 425	\$ -	\$ -	\$ 425

The Association had no liabilities measured at fair value on a recurring basis at June 30, 2021 or December 31, 2020.

Assets measured at fair value on a non-recurring basis for each of the fair value hierarchy values are summarized below:

	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
June 30, 2021				
Loans	\$ -	\$ -	\$ 532	\$ 532
December 31, 2020				
Loans	\$ -	\$ -	\$ 806	\$ 806

With regard to impaired loans and other property owned, it is not practicable to provide specific information on inputs as each collateral property is unique. The Association utilizes appraisals or other market-based information to value these loans and other property owned and takes into account unobservable inputs such as income and expense, comparable sales, replacement cost and comparability adjustments.

The Association had no liabilities measured at fair value on a non-recurring basis at June 30, 2021 or December 31, 2020.

Valuation Techniques

As more fully discussed in Note 2 of the 2020 Annual Report to Shareholders, accounting guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following presents a brief summary of the valuation techniques used by the Association for assets and liabilities, subject to fair value measurement.

Assets Held in Non-Qualified Benefits Trusts

Assets held in trust funds related to deferred compensation and supplemental retirement plans are classified within Level 1. The trust funds include investments that are actively traded and have quoted net asset values that are observable in the marketplace.

Loans Evaluated for Impairment

For impaired loans measured on a non-recurring basis, the fair value is based upon the underlying collateral since the loans are collateral dependent loans for which real estate is the collateral. The fair value measurement process uses independent appraisals and other market-based information, but in many cases, it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, these loans have fair value measurements that fall within Level 3 of the fair value hierarchy. When the value of the real estate, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established.

NOTE 5 - SUBSEQUENT EVENTS

The Association has evaluated subsequent events through August 4, 2021, which is the date the financial statements were issued, and no material subsequent events were identified.
